Chapter XIV - Final Provisions

Article 14.1 Amendments

1. No amendments will be made that apply to the current academic year, unless the proposed amendments in all fairness do not affect the students' interests.
2. Amendments to these regulations are laid down by a separate decision of the Board of Deans and will be published on the IEMA website.
3. Amendments will not negatively affect a decision, regarding a student, made under the existing regulations, by the Board of Examiners.
4. In case new final attainment levels are being prescribed by an accreditation body, the IEMA board is allowed to modify the curriculum in order to ensure that theoretical certificates are issued at all times in conformity with current attainment levels. Such curriculum modifications include appropriate transitional arrangements for currently enrolled students. Students will timely be informed about any changes.

Article 14.2 - Announcement

1. The IEMA Board ensures proper announcement of these regulations and of the rules and guidelines as established.
2. Up-to-date digital versions of the regulations, rules and guidelines mentioned in paragraph 1 will be made available within the Electronic Learning Environment.

Article 14.3 - Unforeseen circumstances

In cases not provided for by these regulations, the Board of Examiners shall decide. No rights can be derived from decisions, announcements, advices etc. from others than the Board of Examiners if these decisions, announcements, advices etc. are in contradiction or not in accordance with these regulations, unless the Board of Examiners explicitly decides otherwise.

Article 14.4 - Hardship

The Board of Examiners is authorized to deviate from these regulations in individual cases if strict adherence to these regulations would result in inequitable circumstances for the student.

Article 14.5 - Force Majeure

If unforeseen and exceptional circumstances, which have occurred beyond the student's and/or IEMA's control and which are solely a result of force majeure; such as situations of crisis or war, humanitarian problems, geopolitical factors/tensions, the outbreak and control of contagious diseases (such as epidemics/pandemics), etc., hinder students from being able to fulfill (the) exam and/or other requirements stated in these regulations, the Board of Examiners, in consultation with the Board of Deans and/or the Executive Boards of MU and VU may deviate from these regulations and may decide to prescribe and/or provide (an) appropriate alternative(s).

Article 14.6 - Unsuitability (Iudicium Abeundi)

1. In exceptional cases and after careful consideration of the interests involved, the Board of Examiners may, stating reasons, ask the Executive Boards of MU and VU to terminate or refuse the enrolment of a student in the IEMA if the student, through his behavior or opinions ventured, has demonstrated his/her unsuitability to practice one or more professions for which he is/will be trained by the programme he/she follows, or is unsuitable for the practical preparation for the (practice of the) profession. Examples of aforementioned inappropriate behavior can be found in the IEMA Code of Conduct in Appendix A.
2. If the Board of Deans is asked by the Executive Boards of MU and VU for a recommendation on a proposed termination or refusal of registration based on the reasons stated in section 1, the Board of Deans will in turn ask for a recommendation from the Board of Examiners. The recommendation to the Board of Deans will be supported by reasons.

Written assignments

Any form of cooperation or exchange of information in the preparation and writing of assignments is forbidden, unless explicitly stated otherwise in the description of the assignment. If any such cooperation or exchange of information is detected, this will be considered fraud – as defined in article 8.1 of these regulations.

Any form of plagiarism is forbidden. Plagiarism is defined as the unauthorized copying or adoption of texts of others. This is considered fraud.

If the examiner has doubts as to whether the assignment was completed independently and individually and/or whether there is a case of plagiarism, he/she is authorized to instigate an investigation.

If the examiner has reason to believe there is a case of fraud, the Board of Examiners will be informed.

The Board of Examiners is entitled to make further enquiries and to apply sanctions in accordance with the provisions of the education and Examination Regulations.

Written examinations

The Board of Examiners will ensure that invigilators are appointed for the written examination, whose task is to ensure that the examination is conducted properly.

If the rules of procedure are violated, the invigilator will be entitled to take appropriate action.

The student must not behave in such a way as to make it impossible to form a correct judgment on the students' command of the subject matter to be examined. Such behavior will be considered an irregularity. Any form of discussion or exchange of information whatsoever will be considered an irregularity. The invigilator will prepare a report of the irregularity and submit this to the report this to the Board of Examiners. The Board of Examiners may decide to take further action.

Instructions

Instructions given by the Board of Examiners, the examiner or the invigilator, as well as any instructions given during or immediately after the end of the examination or part thereof, must be followed by the students.

If a student fails to comply with the above, the invigilator will inform her/him that a report will be made. This report will be submitted to the Board of Examiners after the examination or part thereof. The Board of Examiners may decide to take further action.

In the case of pre-printed answer forms, students must take a seat at the tables on which the invigilator has placed their individual answer forms.

Students may enter the room in which the examination takes place 15 minutes before the beginning of the examination. If the preparations in the room have been completed before that time, students will be allowed to enter sooner.

After the official starting time of the examination, students will be allowed to access the room in which the examination is taking place for another 30 minutes. Students who arrive later will no longer be entitled to take part in the examination. Furthermore students are not allowed to leave the examination room during the first 30 minutes of the examination.

Students who wish to use the toilet during the examination must ask the invigilator for permission. Students who wish to take anything from their bags must also ask the invigilator for permission to do so.

Identification

It is the responsibility of students to provide proof of identity at any time. At the examination, students must produce their student card for inspection by the invigilator. If the student card has been lost, alternative proof of identity (e.g. passport, driving license) must be produced.

Students who are unable to provide proof of their identity during the examination will be informed by the main invigilator of a time when and a location where they can do so later. If a student fails to provide proof of identity, this will be reported to the Board of Examiners. The Board of Examiners is allowed to take further action in conformity with Chapter 8.

Items permitted during examinations

Items other than writing materials (pen, pencil, eraser, etc.) and a student card are not permitted during the examination. For any other tools, the course coordinator must give explicit permission. Such permission will be stated on the examination form.

During the examination, mobile phones, watches, communication devices or any other information carrier - other than the items listed under "Items permitted during examinations" - should be switched off and placed in a bag. It is strictly forbidden to have mobile phones, watches, communication devices or any other information carrier in possession during visits to a toilet in the building in which the examination will take place.

Violations of the rules

In the event of irregularities as defined in this Code of Conduct, the invigilator is entitled to take in the examination script and to refuse the student permission to continue the examination.

The Board of Examiners will be informed of any irregularities after the examination. The Board of Examiners may then decide to take further measures and/or impose sanctions.

Behavior

We expect the students from the International Executive Master of Auditing (IEMA) to behave in a manner that is suited in general and for an academic institution in particular. We emphasize fairness to all students taking the course.

Please do not do anything that is unfair to other students, or ask the coordinator/tutor to make exceptions that are unfair to other students.

In addition, do not perform activities that have the effect or intention of interfering with education or fair evaluation of a students' performance. Examples of such activities include, but are not limited to:

1. Cheating: behaving in a dishonest or deceitful way in order to win an advantage.
2. Plagiarism: the unauthorized copying or adoption of texts of others.
3. Fabrication: using fictitious data and results with the sole purpose to deceive.
4. Misrepresentation of records: tampering and falsifying information, for example on one's resume.
5. Facilitating dishonesty: knowingly helping or attempting to help another violate any of the above provisions.
6. Being late; making sure to be present in the classroom at the scheduled time of the lecture's start.
7. Leave the room during class for emergencies only. If you have to leave during class, please try to minimize the disruption. If you must arrive late or leave early for a particular class, please let your professor and the Programme Office know in advance.
8. Use your laptop for course-related purposes only (so not for work or social media like Facebook, LinkedIn etc). If you use your laptop for not-course-related purposes you can be removed from class.

9. Always turn your cell phone or other audio-equipment off. If there is an extraordinary reason why you must keep your phone on (e.g., you are awaiting critical medical news) please silence your phone and let your professor know in advance that you may receive a call. Leave class to conduct your conversation.
10. Dress in a way that does not offend others and lives up to the normal expectations of executive teaching and training programmes.

Furthermore, in communicating with the academic staff and fellow students, you are expected to behave in a courteous way, i.e., you are expected to show good manners and respect for others. You are especially advised to take this into account in your email communication.
